

300 YARD RESULTS

October 17th ECCL 300 Yard Match Report:

The final 300 yard match of the 2009 season is history. Some excellent scores were recorded in spite of the chilly weather. The TOP score posted in this last event was by John Wilson who shot a sizzling score of 198-6X with a factory Savage rifle. Right on John's heels was Marv Kipplen who shot a 196-6X with a brand new barrel on his Thompson Center Contender "PISTOL"! Cliff Tank was top gun in the Custom Benchrest class posting a 194-7X with his very nice custom Mauser. And another Toledoian, Bob Burmeister, shot a tiny 20 shot cluster measuring 1.889" which is the smallest 20 shot group recorded this Year. Congratulations gents! There must be something Magical in the Toledo area air; as these four gentlemen all reside in former "Black Swamp." Good shooting guys!

Our own Ken Pelletier reigned supreme in the production F-Class category posting a 183-1x. Alan Wolf was top shooter in the Military Rifle prone position category with a 192-5-X. Ed Andy achieved his goal for the year by breaking the 190 barrier, posting a very fine score of 195-0X in the Military Benchrest class. Alan Norman outscored Alan Norman by posting a fine tally of 175-1X in the Vintage Military Rifle category.

I hope everyone enjoyed the match and camaraderie. We all had a great time and enjoyed the get together with our friends. Thanks to everyone, especially to our pit specialist, Dave McCracken, for his efficient target operation. Thanks to Dave, we are able to run these matches with speed and efficiency. GOOD JOB!! Bernie did a bang up job running the line and keeping things progressing smoothly. Thanks a bunch Bernie for your dedication! We hope you mend quickly from the recent surgery and return next year to continue where you left off. All you guys who helped score the targets. Your assistance is greatly appreciated. Lastly and by no means least, I wish to congratulate everyone for doing their part in following range rules and safety guidelines. Thanks for your safe participation and we hope to see you beck again next year. Keep tabs in the club web site for the proposed date for our 2010 planning meeting date.

Bernie, Bob and Nick

CLASS 1A

<u>NAME</u>	<u>SCORE</u>	<u>X-COUNT</u>	<u>CALIBER</u>
