

300 YARD RESULTS

April 17, 2010

The First match of the 2010 season was well attended. Twenty-five (25) individuals shot a total of thirty-two (32) matches. We had a couple of new faces in attendance and wish to welcome them back for future matches. We could have wished for better weather as it was cold and windy and several times we had a dusting of sleet. I can only hope for much better conditions for our next match in May.

Thanks to a bunch guys for arriving early and setting up the targets and boards prior to the match. We have a great bunch of shooters who regularly attend these precision shooting events and pitch in to help with scoring, target duties, and range operations. Without your help, these matches wouldn't be so successful and enjoyable. Thanks to all who volunteer their services!

After reviewing the scores, you will note that the very elusive (200) "perfect score" has yet to be fired this year but there were several attempts at it. I think this year will be a year of high scores and small groups.

Since the targets are located 300 yards from the shooters, and the target centers are black, shot holes are rarely visible when viewed through scopes. This fact presents a unique challenge to everyone on the line. We have placed a small red dot in the center of the "F" class targets to assist sighting on the target but it is a small dot. If anyone has a desire to test your marksmanship skills, please join us at the May 15th match. Be sure to review the rules and suggestions outlined on our website or e-mail me or Bernie with questions.

Regards:

Nick Takacs/Bernie Bong

CLASS 1A PRODUCTION RIFLE, F CLASS, ANY SIGHT

<u>NAME</u>	<u>SCORE</u>	<u>X-COUNT</u>	<u>CALIBER</u>
Jerry Bare	191	3X	223
