

2011 M1 For Vets SnowFlake Shoot

The day of the M1 For Vets SnowFlake Shoot arrived and it started cold but not too cold. After a breakfast at Maws to get the internal boiler factories kick started, it was out to the range to start setting up.

A fire was started in two (2) of the burn barrels "Thanks" to the donation of wood from Robb Parthemore. It was soon nice and toasty around the barrels. We set up the scoring tables, the Wailing Wall, targets for the 1st relay, sweeping of the fire line, and putting up a wind break by the scoring tables. After all of this was done, the shooters started showing up and we proceeded getting them signed in and on the line. Nick started with a safety pep talk and got the shooters started. All shooters expressed excitement for the day's events and the cause the day was for and were ready to get down to the business of slinging lead.

After each relay got done shooting we had a group photo. It was great to see all of the smiling faces after they got done and lined up for the photo. I'm not sure which group of people enjoyed it more, the junior shooters, the middle aged group, or the older generation group.

A great big "Thank You" to all of the volunteers for all the help they gave to this special day and another "Thank You" to all of the people who donated to this great cause.

We also want to give the ladies in the kitchen a "big slap on the back" or if they don't like that a big "Thank You" for setting up a great lunch for everyone. Also a big "Thank You" to Gander Mountain in Sheffield Village in Ohio for always being there for ECCL and M1's For Vets!
