

# SNOWFLAKE SHOOT MARCH 13, 2010

The day started cool and damp and progressed to cold and miserable. The wind and driving rain continued to blow in the shooters faces which caused problems with visibility. In spite of all the misery Mother Nature presented, the shooters turned in some fine scores. Shooters competed with a wide array of equipment varying from M-1 carbines to WWI and WWII vintage arms, to modern service and match rifles. We would like to express our "Thanks" to Nick, Dave, Bob, and Jerry who helped with range setup and operations and Bernie who provided logistics and ran the firing line in a safe and rapid fashion. Neil and Gus provided range safety assistance. Thanks Guys! We would also like to "Thank" all those brave souls who came out to support this noble cause. In spite of all the mud, rain, and fierce winds, we all had an enjoyable time raising funds for those who gave all to guarantee our rights and freedoms to enjoy the shooting sports.

Due to these adverse conditions, several competitors were unable to deal with the soaked glasses and sights, none the less, your donations are greatly appreciated.

We would like to "Thank" the club for the donated prizes and Gander Mountain in Sheffield, OH who also donated an array of merchandise. These items were awarded to the participants by lottery. If any club members get to this store please stop in and see Kelly Walker (The store manager) and say "Thank You" for their donations to this very important cause. We would also like to thank Donna Willinger for bringing the snacks out for the shooters and Tom Bruley for bringing the coffee out and keeping it warm for us. Also "Thank You" to the people (members and non-members) who donated money to the M1 for Vets.

Nick Takacs/Bernie Bong
